WESTERN PRAIRIES JUSTIFY CANADA'S RELIANCE

::0::

Toronto— "If the over-production of wheat in the Canadian West is the cause of depression in the East, obviously the way out should be via the route of reduced wheat production. I am not of the opinion that that would remedy the situation either in the East or in the West," said Hon Frank Oliver, in his characteristic and clear-cut manner, to the members of the Transportation Club of Toronto, at luncheon in the roof garden of the Royal York Hotel. "To the allegation that his wheat productivity is the root cause of the depression, continued Mr Oliver, "the farmer of the Canadian West offers no alibi. In the course of a few years he has changed a thousand-mile buffalo range into a wheat field. The region in which during more than a century, bread was a luxury and flour the chief import commodity, has through, his endeavors, become the greatest wheat export country of the modern world.

"What Alibi Is Needed?"

"From an Indian hunting ground to an advanced civilization second to none in the world inhabited by two millions of people with all the social, educational and material advantages of modern life with 14,000 miles of railway lines—what has happened in the Canadian West has no parallel in human history. That achievement has been built primarily on a consistently increasing production of wheat and the native virility of the people of the West. What alibi is needed?"

Concluding with the expression of his view that "the conditions under which farming is carried on makes successful mass action impossible. Our recent great attempt at mass action in marketing has proved a colossal failure," Mr Oliver believed that an attempt to hold the farmer to wheat growing when wheat has ceased to be profitable would not be well advised; nor would the advice be good to cease growing wheat because the gross volume of production in a certain season has depressed the price," and, while it was Mr Oliver's conviction "that there is a flight on, that it is a world struggle and that every legitimate interest in business in Canada is concerned in aiding the Western farmer to hold Canada's place in the wheat markets of the world, so far as that is economically possible," he was equally confident in his conclusion that "the same spirit that made the West is still alive, and that it is the country's natural dependence for the successful working out of the complex problems of the day."

Unparalleled Mishandling

Mr Oliver gave, briefly, the statistical record of those Western wheat fields culminating in a 500,000,000 bushel crop in '28, back to 270,000,000 in '29 going forward again to 375,000,000 in '30. Turning momentarily to the thorny question of "wheat marketing," the speaker simply commented: "I will not, on this occasion stress what I consider the unparalleled mishandling by which we failed to realize on the bumper crop of '28 when market levels were most favorable in July and August of '29. He showed the recession in price levels ranging from $1.60 down to today's figure around 60c, and he did take the occasion to point out to an Eastern audience that a price of 60c at the Lake Head meant an average of 45c to the average Western grower—with proportionately lower prices for the lower grades of grain.

Speaking in connection with the reported recession in the wheat acreage from 24,000,000 to 22,000,000 acres Mr Oliver added significantly: "If the Western farmer is to be blamed as the chief figure in the depression, for his success in wheat production, it is clear that he is still unrepentant. In my judgement, his planting a crop of 22,000,000 acres, under all the circumstances around the wheat world, is as outstanding as anything he has yet achieved. If the markets take a favorable turn, Canada will win grandly—if not, the farmer will hold the bag as he has done before.

Weather's Same Effect

Mr Oliver made it clear that adverse weather conditions in the West would have the same effect as though less acreage had been sown." He expressed little doubt that "that might conceivably be a desirable result for those who are holding present wheat stocks, the Pool the Banks, the Provincial Governments—but not nearly so desirable for the industries, transportation and general trade and financial interests that have grown great on the returns of Canada's exports of Western wheat."

It was clear to the speaker that the way to Eastern prosperity is still, as it has hitherto been, through Western productivity." Although Mr Oliver could not diagnose or chart the wheat future, and even opined that it is possible that it may become worse instead of better—especially if Russia makes good her present threat, he was still convinced that it is not possible to forecast what forms of agriculture will be substituted. None can actually take the place that wheat has occupied in the past but it is certain that the individual farmer using his own best judgement and experience under the conditions which surround him, is the one to decide at what points and to what extent it has become necessary to give up wheat growing and what ever form or forms of agriculture shall be adopted.

::0::

PACKERS ENTER BRITISH MARKET

::0::

Toronto:— The shareholders of Burns & Co., Canada Packers and of other packing companies have hoped that the recent visit of representatives of powerful British co-operatives to Canada might mean the entrance once more on a good scale of Canada into the export market, particularly with reference to hogs and hog products.

Those who have given a good deal of thought to the question, however, point out that packers will have to enter such a market very carefully and not to make large commitments until the actual condition of affairs in the fall is known. The price of hogs has been above the world level in Canada for many years a fact which deprived Canada of the British market for bacon and other products. To get into the British market packers will have to pay as low as 7, 5 or possibly 5 cents a pound for hogs, and there is no assurance that competitors in Denmark, Russia and other countries will not bring their hogs lower still in order to preserve their present advantage in the British market.

Canada is not much of a factor at present, but the Soviet authorities have imported a number of autumn sows to teach the Russians modern methods of swine breeding and feeding and care. Russians intend to get into the market sooner or later and when the drives have been made to get the Russians to pay more attention to hogs.

Canadian packers expected hogs to be cheap enough last fall to allow them to get into the British market They were disappointed. The attention given by Canadian farmers to growing hogs in 1929 and 1931 leads them to expect that in the coming autumn more hogs will be available and prices will be better. They cannot tell this before the event. The visit of the representatives of British co-operatives is welcomed and an exchange of information will be useful on both sides. Canadian packers are anything but indifferent to possibilities in Great Britain, but price in Canada will be an all important factor.

::0::

WORLDS FIRST CENSUS WAS TAKEN BY CANADA

::0::

Ottawa:— The taking of a census in Canada this summer recalls the fact that it was in 1665 that the first modern census was taken in the world, and it was taken in Canada. It was the 18th century before Europe followed the lead of the Dominion of Canada and in 1790 the United States took its first census. The population of Canada in 1665 was 3, scale, in 1700 it had passed 15,000 and in 1763 when Canada was ceded to Great Britain there were 70,000 people. The 19th century was begun with between 250,000 and 260,000 people and by 1901 there were 5,371,315 residents. In 1911 the figures were 7,206,643 in 1921, 8,788,473 and today it is estimated the total figure will reach 10,500,000. In 1921 over one million were reported as not being able to speak the English language and it is expected the number has grown now.

These figures are of interest:

1608, population of Quebec 60
1641, res. population Canada 240
1665, New France, 3215
1667 New France 3918
1698 New France 15,355
1739 New France 21,701
1765 Canada 69,810
1784 Canada 113,012
1814 Upper Canada, Ontario 95,000; Lower Canada, Quebec 335,000.

The third racial group in Canada is now the Ukrainian, English and French being the first and second.

Local News Items

In the Atlas Wildfire contest, introducing Wildfire coal, handled by Charles Keeling in which a free trip around the world was offered, Rev F W Griffin of St Lukes Vicarage, Mossbank Sask. won the first prize. J R Heine of Strathmore, came under the wire for a Consolation prize of $2.00 and Mrs R L Elliott, Curtis Leonard and George Skogmo of Irricana were also winners of Consolation prizes of $2.00 each.

Kathleen Tierney, the clever musician of Calgary, is very well known in Strathmore, having been a visitor with her mother at the home of the late Mrs J V Moran on several occasions, and her friends are delighted to learn of the success that she is making in the musical world.

Leo Mellisson had a narrow escape last week from meeting with a fatal accident. He was engaged making a new gate at the cemetery and had almost completed his work when he happened to notice that the earth at one end of the opening was looking very shaky. He stepped quickly back and almost immediately a cave in followed and he luckily escaped with a few minor bruises and scratches. Had he not been almost miraculously warned of the impending danger, he surely would have lost his life, as he was engaged at the work alone and would not have been missed for several hours. Leo says, however that all is well that ends well and that it is better to be born lucky than rich.

Rev L B Birdsall of Carbon conducted the morning service on Sunday at St Michael's church

W N Watson formerly of the local trucking staff was in town last week after completing his years work at Alberta University at Edmonton.

Mr Palmer, the popular representative of the House of Hobberlin will visit Thos E Wright's store on Saturday, May 30th and T E is anticipating a splendid list of orders as long as his customers are on the visits of Mr Palmer who always carries with him the very latest lines in patterns and styles made by the famous old house that has been serving quality goods since 1885.

Miss "Toots" Deegan a student at the Convent in Calgary was a week end guest of Mr and Mrs Hector McGregor.

Carl Jones of Coronation spent the week with his parents Mr and Mrs Wm Jones, returning to Coronation he has picked up a general knowledge of the Russian language and says he now can understand Frank Miller when Frank tells a fish story.

Miss Helen Beesley of Richmond Beach, Wash. will graduate from the Richmond Beach High School on the 6th of June with the second best average in her class and will sing the honor of Salutatorian of class at commencement exercises.

Frank Miller of Coronation was a Strathmore visitor on Sunday and wanted to umpire the games with the Calgary Oldamobiles. However manager Hill took Bobby Hunsley's advice and kept Frank away from the Diamond. Bob gave this advice fearing that the crowd might mob Frank.

Fred McKay: "I want to buy a present.

Sweet Young Thing: "Would you like to see something nice in silk things?"

Fred: "Why—er-er yes. But let's tend to the present first."

Rev Leslie Batchelor of Carbon conducted the services at St Michael's church on Sunday morning. He was accompanied by George L Batchelor, his father, who is a member of the Calgary Herald staff.

Ernie Wright was a Calgary visitor on Monday and visited Victoria Park to watch the ponies.

Harvey Hanson would like to interview the B C fellow who ordered seed potatoes on which Harvey prepaid the freight but the B C man has forgotten to remit.

Mat Barbor who underwent an operation at the Holy Cross Hospital is getting along fine and was able to come home on Sunday.

Eddie Collison has picked up a good thing in the B C fellow who ordered seed potatoes on which Harvey prepaid the freight but the B C man has forgotten to remit.

A Fraser, the popular plumber and tinsmith, is a pretty good umpire and an interested devotee of the popular soft ball game.

DUBLIN LAND BILL GIVES OWN FARMS TO TENANTS

::0::

Dublin, May:— Seventy thousand Irish farmers became owners of their own farms on May Day. Under the new land act—the last of a long series extending over a period of 50 years aiming at the transfer, of land from landlord to tenant—this vast number of tenants of old Irish peers and squires are today land proprietors.

All the holdings are being purchased by the State through the land commission at a cost of some £10,000,000. The Minister of Finance has arranged the issuance of land bonds to that amount, and it represents the largest single transaction of the kind since the land purchase movement was launched in 1881.

To effect the transfer of the land bonds to a sum appropriate to each estate are being placed to the credit of the landlord on the books of the National City Bank from which he will draw his dividends.

There are 150,000 farmer tenants in the Irish Free State. The remaining 80,000 will receive the benefit of the new act on November 1. It is expected the land purchase scheme will be in full operation within 12 months.

More Evidence Of Recovery In The Dominion

::0::

Ottawa, — Operations in quite a number of Canadian industrial plants have been increased. Textile and steel mills are more active, and production of electrical equipment also has improved. Boot and shoe factories are employing more workers and so are the metal trades.

An outstanding feature of this general economic trend is the unusually large gains that have been made in manufacturing since the beginning of the year, larger in fact than in any year since 1929 during the post bellum period of expansion.

The increase in manufacturing employment this year has been more rapid than in most other countries. From February to March the increase was 1.56 per cent, and from March to April the increase was 2.15 per cent.

Food distribution, however, has been steady, with lower prices for some items and the shipments of paints, oils and hardware have been more imposing than in recent weeks.

The situation surrounding the pulp and paper industry still is unsatisfactory.

Furniture plants continue well employed, and business is reported good in automotive circles. Sales of new cars, tires and oil in many instances, are in excess of the total at the corresponding time last year. While building work is beginning to pick up, contracts awarded still trail last year's record at this season.

The index of industrial production in April, a weighted average indicating the composite trend of forestry, mining, manufacturing and construction, was 5.9 per cent higher than the previous month; the decline in wholesale prices was more than 1 per cent the general index of common stocks was down 7 per cent, and the number of shares traded on the Montreal Stock Exchange was down 16 per cent.

Street metal jobbers have made a reduction in black and blue annealed sheets in the Ontario territory. The prices on galvanized sheets are without change. Such reductions as have taken effect in primary metal markets have had their influence on manufactured products

Shipments of Canadian cattle for the British market were resumed from Montreal almost with the opening of navigation this season and the trade, which showed considerable promise last autumn, is likely to be a steady fixture during the present open period of navigation on the St Lawrence. Advance bookings already indicate that an average of around 400 head of cattle will be shipped weekly from Montreal during the next two months.

The funeral of the late Mrs Gorson Alleyne was held on Friday at St Michael's church, Rev T B Winter conducting the services. There was a large attendance present. The Pall Bearers were George T Berry; H S B Chamberlain; W R Harvey; J Barkley; S Griffith and Wilfred McKenzie. The interment took place in Strathmore Cemetery.

On Saturday June 6th the local Tennis Club will play the Elbow Park Club of Calgary in Strathmore and the members are looking forward to this event with much anticipation.

Mayor Shrimpton, Mrs Shrimpton and family visited Banff on the holiday and took in the Aquatic Sports.

The Olympic Club Track Meet was held in Calgary on Monday. Dr "Blime Bill" has had a very strenuous walk in training in the person of E F Cameron of the local teaching staff. That he has fitted for the minute is told in the story that he walked the 100 yards he finished first, running easily in the time of 10 2/5 seconds

Howard Swenson who has been up at Coronation for some time has returned home.

The Strathmore Baseball team was much too fast for the Calgary Oldsmobiles on Monday, winning both games, Jack Cott making a very promising youngster named McGregor catching for him and won his game 13 to 3. In the second game Eddie Crellin got away to a bad start but finished strong winning 12 to 8, receiving fine support from the same young Scot whom manager Hill is afraid he will not be able to hold in the ranks the season as one of "Muggsie" McGraw's scouts was looking him over and very favorably impressed except that he isn't Irish.

Bill Keeling, Ralph Martin and Edwin Cott having completed their arduous work at the school of Technology and written their exams, have nothing to do now but await the publication of the results. The whole bunch have apparently wintered well.

The Tennis tournament was held over the holiday by the Strathmore and C P R Tennis clubs. Some very keen games were played. Jack and Florence Garrett won the tournament and Mrs Fowler and Jack Hand the consolation event. The sets were very hard fought and very close. Special mention should be made about two of the younger players, Madge Strathdee and Harold Freeman who lasted right into the semi-finals. It is hoped to have another tournament at some future time.

Mr and Mrs Vanaleyne of Dalemead are rejoicing over the birth of a son at the Nursing Home of Mrs Hinchliffe, with Dr J W Griffen, master of ceremonies.

Mr Fred Cott was reating fairly easy at the Hospital on Tuesday night.

Mr and Mrs C A Lydiatt motored to Granum where they spent the holiday week end with Rev and Mrs A H Rowe, formerly of Strathmore. Mr and Mrs Rowe and family are all very well and happy in their various activities.

Rev E B Brundage is attending the meetings of Conference in Calgary this week.

Mr and Mrs McGregor and family motored to Bassano Sunday where they visited friends.

Misses Myrna and Audrey Mae Lean spent the week end with their grand parents Mr and Mrs A A Moore.

COMING EVENT

Rev F H Wilkinson, rector of St. Stephen's Church Calgary will address a meeting of the League of Nations in Strathmore on Sunday June 28th at 8 o'clock.

"FEET FIRST" TO BE SHOWN HERE ON FRIDAY AND SATURDAY

::0::

Happy Days are here again! Here comes Harold with a brand new bag of tricks that will make your sides ache with laughter,

Harold Lloyd has accomplished what he set out to do! In "Feet First," his laugh-a-minute, thrill a second comedy at Hirtle's Theatre, he has surpassed the thrills of "Safety Last," the all time crier-iest for hair raising moving pictures. This time Lloyd has done it in talking pictures, He has made an all dialog film that's action from start to finish with no time out for conversation.

"Feet First" is a joyous romance filled with convulsing Lloyd gags, according to West Coast critics who have viewed first rushes of the picture. Lloyd, as an ambitious but blundering shoe clerk, falls in love with Barbara Kent, social secretary to his wealthy employer's wife, and, mistaking her for a fashionable heiress he turns himself inside out to reach a social plane which will permit him to make love to her.

His ambitious social climb carries him to the top of an unfinished skyscraper, projects him from a sky lotty window, makes him a stowaway on an ocean going liner, and, generally provides him with enough dare devil comedy situations to keep young and old laughing continuously during the progress of the story.

The complete story of "Feet First" was carefully worked out before shooting. Lloyd's last picture, "Welcome Danger," demonstrated the need for a complete prefilming plan in talking pictures. Other Lloyd pictures were changed and revised during the progress of the filming.

When better thrills are made, Harold Lloyd makes them in "Feet First," his latest talkie, which comes to Hirtle's Theatre on Friday and Saturday May 29th and 30th.

Beautiful Barbara Kent is again Lloyd's leading lady. And Noah Young, Clancy the Cop, in "Welcome Danger," is a goofy gob who keeps the laughs in motion. Thrill-some laughsome, wholesome fun for the family.

MORE GRIST FOR MILL OF DIVORCE

::0::

Ottawa:— In the year 1853 Canada divorces reached the double figure, the number being 13, and in 1903 the number had grown to 21. In 1909 there were 51 divorces granted in Canada and in 1913 the number reached 60. Following the war divorce figures increased rapidly and in 1918 there were 114, in 1926 there were 608 and in 1927 the number reached 745. More divorces were granted in Canada alone in 1927 than in the whole of the 46 year period from 1868 to 1913. The latest returns for the Dominion set the number of divorces in 1928 at 785 and in 1929 at 816. Growth of population has some bearing on these figures.

Proclamation Of The Census By The Governor-General

::0::

PROCLAMATION OF THE CENSUS BY THE GOVERNOR GENERAL

George the FIFTH, by the Grace of God, of Great Britain, Ireland and the British Dominions beyond the Seas KING, Defender of the Faith, Emperor of India.

To all to whom these presents shall come, or whom the same may in anywise concern:— Greeting:

A PROCLAMATION— W Stuart Edwards, Deputy Minister of Justice

Whereas in and by "The Act Respecting the Dominion.. Bureau of Statistics" it is amongst other things in effect enacted that a census of our Dominion of Canada shall be taken by the Dominion Bureau of Statistics under the direction of our Minister of Trade and Commerce for Canada on a date in the month of June in the year one thousand nine hundred and thirty-one to be fixed by Our Governor General in Council.

And whereas it is therein further enacted that the details of information and procedure to be followed for obtaining thereof, the forms to be used and the period at which, and the dates with reference to which, the census shall be taken, statistics and information collected whether generally or for any specified localities requiring to be exceptionally dealt with in any of these repects, shall, subject to the provisions of the said Act be as Our Governor General in Council directs.

And whereas it is of tre utmost importance to the interest of all people of the Dominion of Canada that this Census should be complete and accurate.

Now Know Ye, that We by and with the advice of Our Privy Council for Canada, do by this Our proclamation, hereby make known that under the law aforsaid it is the duty of every person to answer all questions on Census schedules applying to him and the family to which he belongs and to the farm occupied by him or his family, and all other questions as required by law, and that any person refusing to do so is subject to penalty.

The sole purpose of the Census is to secure general statistical information regarding the population, agriculture, and trade of the country, and information is required from individuals only to permit the completion of such general statistics. The Census cannot be used in connection with taxation, with military or jury service with the compulsion of school attendance, with the regulation of immigration or with the enforcement of any municipal law or by-law. For the due protection of the rights and interests of the persons furnishing information, every officer, agent, or other person employed by the Dominion of Statistics is bound by oath under a heavy penalty to keep inviolate the information entered on the schedules or forms.

And of which our loving subjects and all others whom these presents may concern, are hereby required to take notice and to govern themselves accordingly, and thereby contribute their share towards the success of this great and necessary public undertaking.

In Testimony Whereof, We have caused these Our Letters to be made Patent and the Great Seal of Canada to be hereunto affixed.

Witness, Our Right Trusty and Right Well-Beloved Cousin and Councillor, Captain the Right Honourable the Earl of Bessborough, a Member of His Majesty's Most Honourable Privy Council, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint Governor General and Commander-in Chief of the Dominion of Canada.

At Our Government House, in Our City of OTTAWA, this Fifteenth day of MAY, in the year of Our Lord one thousand nine hundred and thirty-one, and in the twenty-first year of Our Reign.

By Command THOMAS MULVEY, Under Secretary of State

SPORT NOTES

THE BIG HEAVYWEIGHTS

—:o:—

Apparently Mr Sharkey is working on the old theory that if "A" beats "B" and B can beat "C" then C is duck soup for "A". He is well aware of the fact that he whipped Maloney and almost made him quit Carnera couldn't whip Maloney and Carnera couldn't make him quit. Even though he was a full head shorter and weighed 30 pounds less he tore into Carnera for the full twenty rounds of their two fights. There is little doubt that Sharkey will hit Carnera at will, but whether he will be able to hit hard enough to upset the big fellow is another matter, Carnera is far from easy to knock down. Stribling did succeed in doing it, but Carnera bounced up again and chased him all over the ring. Should this same thing happen again in the Sharkey—Carnera bout, it will no doubt be some race, as Sharkey certainly knows his stuff. If you can recall to your minds eye Jeffries, you will see a boxer with a big bonny structure and a massive jaw, plus a large head that could take a punch that would floor the average boxer. Carnera is the same type of man. In the day's when Jeffreies was at his best he could take the hardest anyone could hit and it wouldn't shake him, To quote Bob Fitzsimmons after their second fight, Bob maintained that no man ever lived who could knock Jeffreies out, Carnera has these big qualities. But Jeff knew how to box and protect himself and Carnera does not. The Sharkey—Carnera bout therefore boils down to just how long Sharkey can pound Carnera without becoming too tired to protect himself

In his bout with Schmeling, he showed effects of weakening in the fourth round. He is just as wiry and comes back better than the Italian Should Sharkey under these circumstances lose his coolness, then it is not improbable that Carnera will suprise the world by pumbling Sharkey clear through the ropes.

Another angle to the affair is, should Sharkey KO Carnera in June a lot of complications would start. First, the New York boxing commission would probably pro-

JIMMY McLARNIN TRAINING CAREFULLY

—:o:—

Orangeburg, N. P.— Jimmy McLarnin most popular of present day fighters, has reached the turning point of his career and the serious manner in which he is training at Gus Wilson's camp indicates that the pacific coast slugger intends to make his forthcoming bout with Billy Petrolle a stepping stone to the world's welterweight championship.

The baby-faced Irishman, who has defeated eight world's champions, but never held a title, and Petrolle, are scheduled for a 10 round return bout at Madison Square Garden, May 27. In their previous bout last fall McLarnin received the worst beating of his career and narrowly escaped a knockout. A second victory for Petrolle definitely would eliminate McLarnin from top ranking in his class and probably would mean the end of his career ,while a decisive reversal of the previous decision would quality the coast slugger for a titular bout with welterweight champion Jack Thompson.

McLarnin and his astute manager, Pop Foster, previously have shown little interest in gaining a championship, believing they could make more money without a title, but Jimmy now is anxious to win the title.

claim Sharkey the heavyweight champion of the world, and that will go for New York State, which officially dethroned Schmeling by a proclamation some lonths ago. If it turns out to be a good hot fight and the Schmeling-Stribling affair isn't a waltz, a match between the two winners would make a big card for September.

HEARD ON THESTREET

"No, sir," said the clerk at the crowded hotel. "I can't give you a room, but I can give you a half of a private dining room. There's a screen across it, and a lady has the othr half, but I reckon she won't bother you."

The man accepted the emergency accommodations but thirty minutes later he ran into the lobby wide eyed and pale.

"Say," he yelled to the clerk, "that woman is dead!"

"I know it," said the clerk, "but how did you find out?"

• • • • • •

Axel: "Gee I never saw that hula hula dancer do so well."

Hector: "No wonder. The bumble bee got into the dressing room and made a nest in her grass skirt."

• • • • • •

Best Man: "Wasn't it annoying the way the baby cried all during the ceremony?"

Maid of Honor: "It was dreadful When I get married I shall have engraved on the invitations, "No Baby's Expected."

• • • • • •

A boy was about to purchase a seat for a cinema in the afternoon. The box office man asked, "Why aren't you at school?" "Oh it's all right sir," said the youngster, earnestly, "I've got measles."

• • • • •

Teacher: "In the sentence 'I saw the girl climb the fence,' how many I's would you use,"

Boy: "Both of 'em, teacher."

• • • • •

Golfers Favorite Songs— 'I'm following you'; 'After the ball'; 'Swinging in the hummock'; 'Tee for two,' and 'Little white lies' This latter is no doubt most popular.

• • • • •

A very small boy with a very large bundle of papers under his arm was trudging along the street.

"Don't all those papers tire you my boy ?" asked a kindly gentleman.

"Naw, I don't read them," replied the boy.

• • • • •

A man was stranded on an unknown island. He was afraid of cannibals, so he moved very cautiously. As he was climbing up a small hill he heard a voice: "Who in hell trumped my ace ?" The man lifted his eyes to the sky above and said: "Thank Heaven, there are Christians on this island"

• • • • • •

"The husband ought to have a voice in the furnishing of the home" says a woman writer.

Ernie Whiteside: "Oh, but he does—the invoice.

• • • • •

A Scotchman once lit a cigar with a twenty dollar bill, He had no intentions of paying it, anyway

• • • • •

"Need any help?" asked the passing motorist.

"Yes," replied the man as he lifted a grimy face from under the hood. "I'd be obliged to you if you'd answer my wife's questions while I'm trying to get this engine to run."

• • • • •

Carl Brown: "How do you spend your income?"

Herb: "About 30 per cent for shelter, 30 per cent for clothing, 40 per cent for food, and 20 per cent for amusement,"

Carl: "But that adds up to 120 per cent,"

"That's right," said Herb

NO OTHER LOW-PRICED TIRE HAS THESE ADVANTAGES!

Take no chances with low-priced tires of unknown quality. Equip with Oldfield tires —made and guaranteed by Firestone to give you long, dependable mileage. Only Firestone-Oldfield tires have these advantages:

1. *Gum-Dipped Construction*
Increases tire life from 25% —40%

2. *New Double Cord Breaker*
Eliminates road shocks and gives added insurance against punctures and blowouts.

3. *Scientific Tread*
—made of tough, long-wearing rubber to give the utmost traction and safety.

Your nearest Firestone Dealer carries a complete stock of Firestone-Oldfield tires — he serves you better and saves you money. See him today.

GENERAL CONDITIONS SAID TO BE MATERIALLY IMPROVED

The May letter of the Royal Bank is quite optimistic:

It reports: General conditions in the manufacturing industry are still below normal, but the volume of business has shown substantial improvement during recent months. Textile mills have greatly expanded their operations, new factories have been opened and extensions made to existing plants. In some instances, mills have been working on overtime schedules. Production is generally more satisfactory in the steel trades. The automobile industry has increased its output in anticipation of spring orders. Three United States automobile companies have recently concluded arrangements for the manufacture of their products in Canada, and the Ford Company has secured a site of about eight acres near Vancouver where a plant will be built to fill the requirements of the Western Canadian territory. The tariff changes recently brought into effect in Australia will be of considerable advantage to Canadian Automobile manufacturers. Pulp and paper plants continue to operate at less than 60% of capacity. Conditions in this industry have been distinctly unfavorable. Production of Newsprint however, amounted to 187,096 tons in March, an increase of 22,453 tons over the February output. Shipments amounted to 187,730 tons, slightly more then the total produced

Preparations for the season's agricultural operations are now under way in practically all sections of Canada. Precipitation during the fall and winter months has been insufficient in many parts of the West and moisture conditions are causing grave concern and have delayed seeding operations. Plenteous rain will be needed during the growing season to ensure satisfactory yields of grain. No estimate of the acreage to be sown to wheat has been made, but it is generally considered that some reduction will be shown. A larger acreage will be summerfallowed in the expectation of improved markets in 1932. Fall sown crops wintered well in Eastern Canada and British Columbia, spring work was commenced at an early date and conditions are generally hopeful for the 1931 season.

The resistance shown by the prices of livestock and animal products to the general decline in commodity prices, combined with the low levels at which feed could be procured, turned the attention of many farmers to the livestock industry. The market has suffered from over supplies and from heavy offerings of poorly finished stock. The price of well finished animals has not suffered such heavy declines. The export of cattle to Great Britain has continued at a moderate rate throughout the winter. A recent cargo included fifteen carloads from Alberta, the first shipment made under the auspices of the newly formed Council of Western Beef Producers. The market for hogs has been firmer in recent weeks as supplies have been moderate. Stocks of pork and other meats in cold storage in Canada are also much smaller than at this time in previous years.

——:O:——

POPULATION AND AGRICULTURAL STATISTICS CENSUS FEATURES

The schedules which will be used in the 1931 Census have been approved, printed and delivered to the Census Enumerators, and are in readiness for use in the Census which begins promptly on June 1.

The two main schedules of the Census relates respectively to Population and to Agriculture. The Population schedule will follow the main lines of previous years, though there are a few rearrangements and improvements.

Among the latter a practically new section will deal with Unemployment. The existing situation in this respect on the Census date will be shown, and the record for each worker will also be obtained over the past year. The results should prove of much practical benefit in the study of causes and methods of alleviation.

Some rearrangements of the schedule will also banish the fear that has been entertained lest Canadian nationality will not be recorded in the fullest possible way. Canadian national status will be treated in a column by itself. In addition the schedule calls for birthplace, year of immigration, year of naturalization and also the birthplace of the father and mother of each person.

There will be a supplementary schedule dealing with the blind and deaf mutes and the usual forms for dealing with closed houses, absentees etc.

The Agricultural schedule has been very considerably improved as compared with any previous Census. In 1925 the International Institute of Agriculture, which is representative of over 60 countries undertook a special investigation as to the best methods, schedules, etc. for use in the taking of an agricultural census. A special staff of experts was engaged on this study for nearly three years, in the course of which a personal visit was paid to every important agricultural country in theh world, 74 in all—for the purpose of examining requirements and methods on the spot. The results of this inquiry have since been published and have been made use of extensively in the drawing up of the Canadian schedule, in addition to which the Bureau of Statistics has been in touch with Dominion and Provincial Departments of Agriculture and other experts throughout Canada and the United States. Altogether no less than 178 organizations have been consulted. The schedule, it is hoped, will collect a new wealth of information on the basic industry of the Dominion.

A new feature of the Census is a brief schedule that will be filled in for every trading establishment in Canada. The data on these schedules will be made the basis for a more intensive study by correspondence, the whole to result in a scientific study of distribution in Canada, on which comprehensive data has never previously been available

——:O:——

IT AIN'T GONNA RAIN NO MORE, NO MORE

——:O:——

What an English editor thinks of America's condition is certainly well put in "A message to American Business Men," from Herbert N Casson, editor of Efficiency Magazine, London. Read it—it will do you good.

"You are depressed. You think you are crippled. You are afraid of the future. You are full of fears.

"You have the gold of the world and half of the machinery and most of the automobiles and all the skyscrapers.

"You have the greatest home market in the world and the largest corporations that the world has ever seen.

"You are ruled by ideas and less by traditions than any other people in the world, you have usually done what you thought you could.

"How can it be possible that a progressive nation of 120,000,000 people can be wrecked by the speculations of a little handful of fools in Wall Street?

"The prices that were forced too high had to come down. Today all the prices are too low.

"There is now a golden opportunity for every man who has eyes to see it.

"Dollars are now being sold for 50 cents. Practically every security in the United States is now being sold for less than its value.

"The way to create a fortune is to buy from pessimists. Pay your money and take the risks.

"Frick started his career by buying coke ovens in the slump of 1873. Carnegie made $300,000,000 by buying steel plants in slumps.

"Hundreds of fortunes have been made by buying from pessimists. Ye Gods! What a chance there is at this moment.

"In five years from now most American business men will belong to the "I wish I Had Club."

"Then it will be too late to buy a dollar for 50 cents. The opportunity will be gone.

"When a horse balks— it is in the head, not in the legs. He moves only when he thinks he will.

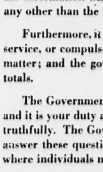
The Census of Canada 1931



In the opening weeks of June every family and every home in Canada will be visited by a representative of the Government for the great national purpose of taking the seventh census of Canada.

The census is really a stocktaking. That is, it provides the information to enable the Government and others interested in the development of the country to formulate progressive policies for the happiness, comfort and prosperity of our people.

All the information supplied is strictly confidential, and the officers of the Government are subject to severe penalty if they disclose any of the information which is given to them by residents in the country, to any other than the Government.

Furthermore, it has nothing whatever to do with taxation, or military service, or compulsory school attendance, or immigration, or any such matter; and the government itself cannot use it except for statistical totals.

The Government representative will put the same questions to all, and it is your duty as a resident of this country to answer promptly and truthfully. The Government is very anxious to avoid forcing anyone to answer these questions, but it is empowered to do so in the few cases where individuals may refuse.

STRATHMORE

It was snowing and getting late when Tam emerged somewhat unsteadily from the inn, cranked up his car, and, slightly overshooting the mark, planted himself solemnly in the back seat.

The watchful village policeman approached him and said kindly; "Noo, Tam, ye'll need to come out of that. Ye're not fit to drive."

"Mind yer ain business," was the rejoinder; and then, in magisterial tones, Tam proceeded: "It would suit yee better to catch the fellow that's stolen my driving wheel."

Rockyford

The local baseball senior team and the fans from Rockyford all journeyed to Hussar for the Empire Day Holiday where the team was successful in defeating the contesting towns and bringing home the money for the tournament. In the first game, the odds all looked to be with the Bassano players for the first part of the game but after the first innings our boys steadily gained until the score stood at 11 to 8 in the final. The second game was played with vim, and was quite as successful. This was the first serious game of the season for the team, and we hope they will be able to continue their lead for the summer.

* * * * *

Mr and Mrs Black had his brother Mr Herbert Black and Mrs Black and Frank of Calgary visiting with them over the week end and holiday, Mr and Mrs Cuthbert the bank manager of Gleichen branch were also visitors on the Sunday.

* * * * *

Miss Peryl Gourley, teacher at the Rosebud Valley School has had her sister from Calgary visiting with her for some time, at the Hoppel home.

* * * * *

Miss Tibel Dunsmore and Miss Pearl Hoppel were both staying at their respective homes over the long week end.

* * * * *

Little Miss Maryland Diebert had her tonsils removed at the hospital on Calgary last week, She is quite her usual cheerful self again

* * * * *

There was very little stir around Rockyford on Monday, Empire Day, except real estate. The inhabitants were nearly all out of town. A number took in the races at Calgary and many other points claimed the balance of those who were able to get away.

* * * * *

The Rockyford Ladies Club had a very interesting meeting on Thursday afternoon May the 21st at the home of Mrs Walrod. The chapter of the book to be read at that date dealt with the "Causes of collapse of Religion in Russia." Next regular meeting will be held at the home of Mrs Carpenter on Thursday June 4th when the chapter on Property will be heard.

* * * * *

Dr Chas Endicott of Saskatoon gave a very interesting talk to the congregation of the United Church on Sunday evening last. He chose for his subject "God is in the Mountain and God is in the Valley" and drew a splendid message of inspiration and cheer from the same. Dr Endicott has been exceptionally well received on each of his two visits to Rockyford.

Mr John Cernak had the misfortune to come in contact with another car on the highway from Calgary Sunday evening. None of the occupants of the cars were hurt, but the cars are both under repair yet.

Beautiful Ontario Summer Camps Call

Unrivalled for its scenic splendors, the beauty of its lakes and streams and their world-wide reputation as fishing-grounds, Ontario offers the holiday-seeker as fine territory as any to be found on the American Continent. Bungalow-camps bring practically virgin areas within easy reach of the disciples of Isaac Walton, with handy connections from Toronto and other points by Canadian Pacific Railway lines. These camps are a combination of the lure of the wilderness with the comforts of civilization and consist of individual "camps" or sleeping-cottages, centred on a dining and recreation hall. Modern furniture and conveniences predominate, and thus the individual or family seeking a country vacation find golf, tennis, hiking, swimming, sailing, canoeing, motor-boating and dancing for their amusement, apart from a wide variety of fishing, which may be carried out, either in the vicinity of the camps themselves, or back in the hinterland, with competent guides, who also act as servants. On the main trans-continental line of the Canadian Pacific Railway, three such camps are found in the Province of Ontario. At French River, 215 miles north of Toronto, within a stone's throw of the railway station, there is a well-found camp, which offers muskellunge and great northern pike to the fisherman. At Nipigon, 22-hours run from Toronto, trout, pike and pickerel are the principal allurings and at the Devil's Gap, Kenora, Lake of the Woods, Ontario, 126 miles east of Winnipeg, the famous Canadian black bass offers sport such as anglers dream of, but rarely get. All these camps combine the excellent features already referred to and are visited by fishermen, tourists and holidaying families from all quarters of the globe, each summer. They have a thoroughly enjoyable and thrilling holiday time and return each season in ever increasing numbers. They are part of a great chain of such installation operated in connection with the railway, for the purpose of taking people "back to nature" and yet giving them the same standards of accommodation and service as are found elsewhere throughout its system. The pictures show: (1) A scene at the Devil's Gap Bungalow Camp. (2) A typical fighting great northern pike. (3) Home-coming at French River. (4) One for the train-crew, from a lake angler at Nipigon.

Have you enough *Life Insurance?*

No matter how large or how small your estate, it will suffer heavy deductions before it reaches your wife or family. Doctors, nurses, hospitals, undertakers, lawyers, etc., not to mention succession duties, if the estate be considerable, will reduce the net amount payable to your heirs by anything from 10% to 25%.

Take your pencil and try a simple sum in arithmetic, using an actual case as an example:

	Typical Case	My Case
Total face value of all my life insurance policies	$5,000	$
Estimated value of my real estate, securities and other assets	$2,000	$
Total	$7,000	$
Less 15% as indicated above	$1,050	$
Total estate (net)	$5,950	$
Invested in good securities at 5% this should yield my family an annual income of	$297.50	$

IS IT ENOUGH?

...and There

Inaugurated in 1926 in answer to the demands of rapidly increasing travel between Montreal and Boston, the "Red Wing", fast running Canadian Pacific night express between these cities will have forty minutes cut from its schedule on and after January 11, leaving Montreal, forty minutes later than before and arriving at Boston at the same time as on the former schedule. The train will leave the Windsor Station, Montreal, at 9.55 instead of 9.15 as heretofore. The "Red Wing" is an all-steel train with all equipment of the latest type.

Appointment of W. R. Patterson to be deputy general auditor, Canadian Pacific Railway, is announced by E. E. Lloyd, Comptroller of the railway. He is succeeded in his late position of auditor of disbursements by Charles H. Gordon. Mr. Patterson is one of the younger men holding important offices in the Canadian Pacific Railway, having been appointed auditor of disbursements four years ago at the age of 36. Mr. Gordon was comptroller of the Kettle Valley Railway in British Columbia, prior to his new appointment.

A motor cycle and side car carrying two men and towing a sled on skis, awoke the silence of Lake Louise December 28 when at nearly 6,000 feet altitude it roared around an improvised track at a speed above 50 miles an hour. It was the first time in history that a motor cycle has been on Lake Louise; the first motor cycle ski-joring that has taken place there and the first time that a motor cycle has travelled under its own power from the Prairies to Lake Louise in the depth of winter.

On the stroke of midnight of December 31st, last one of the most remarkable railroad careers in the Maritime Provinces ended with the retirement of Charles H. S. Henderson, dean of Canadian Pacific Railway conductors. Mr. Henderson became a train conductor in 1873, at the age of 17 on the New Brunswick railway between St. Stephen and Edmundston. He completed 54 years of service with this railway and the C. P. R. December 31. He has been conductor on the trains of three successive presidents of the Canadian Pacific.

Scheduled to play at least 25 games in less than three months in practically every capital of Europe the Manitoba University grads' ice hockey team sailed from Saint John aboard Canadian Pacific liner Melita for Liverpool, January 2. They will return to Canada from Liverpool at the end of March.

The "Corn Belt" of North America has in the last few years slowly pushed its way north and today many parts of the prairie provinces of Canada are producing corn of different varieties and of high quality. At the fifth corn show under the auspices of the Saskatchewan Corn Growers Association, one of the finest exhibits of corn in the history of western Canada was on display.

A recent official report states that over 50 varieties of edible fish are found in the waters of British Columbia and brings between five and ten cents a pound on the market. The catch is the industrial product of which fishing contributes.

—:O:—

OYSTER BED GIVES VALUABLE RETURN

Charlottetown, P E I— From an oyster bed of 600 acres in a little bay in Prince Edward Island which is only one fifth of the whole area and taking only one quarter of the maximum yield, there is an annual production of 1,200,000 barrels of oysters, representing a return of $10,000,000 and the oysters have won the reputation of being among the finest in the world.

CARD OF THANKS

Mr Gordon Alleyne, on behalf of himself and Miss Knyvett, Miss Sylvia Philpott and the Knyvett children, wish to express their sincere thanks to their many friends for their expressions of sympathy in their recent bereavement.

READ THE WANT ADS

5 Mistakes

1 A man struck a match to see if the gasoline tank was empty. It wasn't.

2 A man patted a strange bulldog on the head to see if it was affectionate. It wasn't.

3 A man stepped on the gas to see if he could beat the train to a crossing. He couldn't.

4 A man touched an electric wire to see if it was hot. It was.

5 A merchant discontinued his advertising to see if he would thereby save money. He didn't.

THERE IS NO MISTAKE ABOUT THIS

Advertising is the fuel that keeps the store clerk running and keeps the money pouring into the cash register in ever-increasing volume.

Advertising in the Strathmore Standard is read by thousands of buyers of merchandise in the Bow Valley and serves as their guide in making their purchases

Mats, and Autocaster advertising helps and illustrations are yours for the asking. Call 17 for the ad man. He will call on you.
